- b. Three of these 12 trains are said to have come from the Soviet Union, carryin a total of 6,000 troops (reilrond stations of departure: GLIOAUM) and YACODUM).
- e. A short massa is was received from one source in COTTEUS that west-bound trains carrying Soviet troops which arrived from the east about 20 August 1949 headed into the Soviet Acade. Efforts are being said to verify this report? Should the information supplied by the two sources be confirmed, it sould be assumed that personnel attending courses of instruction and schools in the soviet which personnel attending courses of instruction and schools in the soviet which personnel attended in maneuvers which were held in the soviet cone of seriony in August 1949 (KOEKISSEMUSCA and Thuringian training areas). (Training schools provide for two or three months' service with field units.)
- d. The nine shipments observed in the Soviet wons by one (?) US source, indicate the transfer of units to the training areas (The kine Libert OSE, kout GSERUBLA, AFTERING Heath, EISEMACH-ONDRUF). It is believed possible that troops of various armies attended common unnouvers, but this assumption has still to be confirmed by other sources.
- 2. Answers to individual questions concerning the leading of military trains:
  - a. How many men are normally loaded into each car, 25, 30, 35, or 40? answr: The normal load of a frelight car is 38 men, in summer 40 (no stoye).
  - b. Now many Told type tanks are loaded on a Scande car? On a decade car? Heavier type tanks? Are many decade care available for the transport of armored vehicles?

f. As it sor at present for military trains carryin; troops and equipment to have first priority over reparation trains? Over regularly-scheouled passenger trains?

#### maswer:

Wiltery trains carrying troops at present have first priority over all froith trains, including reparation trains, but priority rights have to be given such individual train. Supply trains have priority over frei ht trains only in exceptional cases. Ellitary trains carrying troops and equipment at present have no exiepty over regularly-scheduled passenger trains.

- o Only on care with 50 or hore tons load capacity.
- so two tanks on cars with a load espacity of 50 tons or sore.
- one Cars with a load supecity of less than 50 tons also carried a tent of this type.
